

Name: Ezekiel Angelo Colon

Live Portfolio Link: <https://ZIXkute.github.io>

I designed my portfolio to give off a clean, modern, and tech-driven vibe that reflects both professionalism and creativity. My favorite part is the hero section—it instantly captures attention with bold visuals and sets the tone for the rest of the site

My workflow blends collaboration, research, and efficient coding. I believe in "building fast, refining smarter." Each project follows a clean cycle:

1. 🐞 Research & Brainstorming
2. 🎨 Prototyping & Design
3. 🚀 Development & Testing
4. 🔄 Launch & Iterate

Tech Stack: HTML, CSS, JavaScript, React, Node.js, C
